

EAH Water Contest Participation Guide

Congratulations! You've signed up to compete in the EAH Housing Water Contest.
Keep going with these next steps:

1

Launch the contest at your property!

Check out the "We Campaign" templates to gather pledges from residents.

2

Plan your campaign and conservation action plan

Don't forget to email your conservation action plan to rebeccaa@seiinc.org.

3

Engage resident helpers and champions to help!

4

Implement water saving strategies and behaviors

Reach out to SEI or EAH if you need help implementing your conservation plans.

5

Track your progress

Update your Drip Board with water usage data so your residents can see how they're doing.

6

Celebrate and share successes

Share out on Yammer some of the creative things your property is doing to save water. Let your residents know when you've made progress and improvements. Keep up the good work!
